INDEX TO VOLUME 36

ARTICLES

- Achievement of Twins in Science, Kenneth E. Anderson, 29-32.
- Age Placement of Selected Science Subject-Matter, Francis W. McCarthy, 253-254.
- Alcohol, Science Education Regarding, Oscar L. Brauer, 77-79.
- Annual NARST Meeting, 247.
- Attempted Method for Counseling in the Classroom, An, Charles W. Mohler, 113-122.
- Behavior Involved in the Critical Aspects of Scientific Thinking, Mary Alice Burmester, 259-263.
- Cancer as Painted by the Geneticist, A Picture of, Anna B. Collard, 52-58.
- Certification Requirements in Elementary and Secondary Schools, Clarence M. Pruitt, 182-193.
- Chemistry for the Blind, Arthur H. Bryan, 91-95.
- Chemistry Teachers, Alabama, 1948-49, The Undergraduate Preparation of High School, Will S. DeLoach and Auburn Russ Hall, 27-28.
- Community Resources, Educating the Science Teacher to Use, S. R. Powers, 67-73.
- Comparison of Two Methods of Teaching Mechanics in High School, A, Bernard Abramson, 91-95.
- Concepts of Magnetism Held by Elementary School Children, George W. Haupt, 162-168.
- Counseling in the Classroom, An Attempted Method for, Charles W. Mohler, 113-122.
- Current Practices in the Use of Greenhouses as Part of the Biology Program in High Schools, Keith C. Johnson and Thomas J. Kerwan, 85-89.
- Determination of Experiments Desirable for a Course of General Science at the Junior High School Level II, A, Herbert F. A. Smith, 32-47.
- Development of Science Education in the Junior High School, The, Sam S. Blanc, 107-113.
- Educating the Science Teacher to Use Community Resources, S. R. Powers, 67-73.
- Education of Teachers in Science, Report of the Thirtieth Conference on the, Willard Jacobson, 216-221.
- Education of Teachers in Science, The Twenty-Ninth Conference on the, F. L. Fitzpatrick, 73-77.
- Experimental Study in the Teaching of Scientific Thinking in Biological Science at the College Level, An, John M. Mason, 270-284.
- Factors Related to Success in College Physics, A Study of Various, Sam Adams, 249-250.
- General Education Science Courses, The Subject-Matter Content of, Robert Adrian Bullington, 285-292.
- General Education Courses in Physical Science, Study of Competencies Desirable for Instruction of College, Oren R. Rankin, 297-306.
- General Education II, A Syllabus in Biology for, Nathan S. Washton, 227-237.
- General Education Science Courses in Southern Association Junior and Senior Colleges, Leland Leslie Wilson, 293-297.
- General Education, Teaching Biology for, Nathan S. Washton, 237-240.
- Goals in Science Teaching, Review of the General, Sam S. Blanc, 47-52.
- Greenhouses as Part of the Biology Program in High Schools, Current Practices in the Use of, Keith C. Johnson and Thomas J. Kerwan, 85-89.
- Inservice Experience to Improve Science Education, An, Louise A. Neal, 157-161.
- Interpretation of Science Through Press, Schools, and Radio, The, Watson Davis, 79-84.
- Investigation of the Attitudes of Teachers Toward the New York State Regents' Examinations in Science, An, David John Miller and George Greisen Mallinson, 203-215.
- Mathematical Content of Two General College Physics Texts, The, William H. Hausdoerffer, 250-252.
- Mathematics Used in the Humanities, Social Sciences, and Natural Science Areas in a Program of General Education on the College Level, The, Adele Leonhardy, 252-253.
- Mechanics in High School, A Comparison of Two Methods of Teaching, Bernard Abramson, 91-95.
- Minutes of the Executive Committee Meeting of the National Council for Elementary Science, 156.
- Need for Science Classroom Procedures in Thinking, The, Milan J. Krasnican, 123-125.
- National Council for Elementary Science, 155-156.
- New York State Regents' Examinations in Science, An Investigation of Teachers Attitudes Toward the, David John Miller and George Greisen Mallinson, 203-215.
- Notes of Annual Business Meeting of the National Council for Elementary Science, 152-156.
- Physical Science Teachers in Australian Teachers' College, The Preparation of, Roy W. Stanhope, 3-18.
- Picture of Cancer as Painted by the Geneticist, The, Anna B. Collard, 52-58.
- Preparation of Physical Science Teachers in Australian Teachers Colleges, The, Roy W. Stanhope, 3-18.
- Prevalence of Belief in Science Misconceptions Among a Group of In-Service Teachers in Georgia, W. W. E. Blanchet, 221-227.
- Problem Solving for Today's Children, Elsa Marie Meder, 131-134.
- Problems Facing Children, Some, Beatrice J. Hurley, 136-139.

- Reading Difficulty of Textbooks for High School Physics, The, George Greisen Mallinson, Harold E. Sturm, and Lois Marion Mallinson, 19-23.
- Report of the Thirtieth Conference on the Education of Teachers in Science, Willard Jacobson, 216-221.
- Report for 1951-52 to the National Council on Elementary Science on the Organization of the State Representatives, A, George Greisen Mallinson, 148-152.
- Report to the National Council on Elementary Science on the Organization of the State Representatives for 1950-51, A, George Greisen Mallinson, 145-148.
- Reports of Group Discussions, John Read, 140-145.
- Review of the General Goals in Science Teaching, Sam S. Blanc, 47-52.
- School Today: Is It Meeting My Educational Needs?, The, Ann Younker, 126-127.
- Science Courses Offered for General Education in Selected Negro Colleges, An Evaluation of, William Fauntleroy Goins, Jr., 248-249.
- Science, Democracy, and Education, Robert Ulich, 134-136.
- Science Education Regarding Alcohol, Oscar L. Brauer, 77-79.
- Science Interests of Third Grade Children at Longfellow School Revealed through Science Experiences in Animal and Plant Life, A Study of, Louise Lee, 255-256.
- Science Literature in Childhood Education, Dorothy J. Marshall, 175-182.
- Science Misconceptions Among a Group of In-Service Teachers in Georgia, Prevalence of Belief in, W. W. E. Blanchet, 221-227.
- Scientific Thinking, Behavior Involved in the Critical Aspects of, Mary Alice Burmester, 259-263.
- Scientific Thinking in Biological Science at the College Level, An Experimental Study in the Teaching of, John M. Mason, 270-284.
- Selection and Training of Future Scientists III. Hypotheses on the Nature of "Science Talent," Paul F. Brandwein, 25-26.
- Some Problems Facing Children, Beatrice J. Hurley, 136-139.
- St. Louis Meeting, 202.
- Studies in Mental Rigidity and the Scientific Method II. Mental Rigidity and Comprehensiveness, Marvin D. Solomon, 263-269.
- Studies in Mental Rigidity and the Scientific Method I. Rigidity and Abilities Implied in the Scientific Method, Marvin D. Solomon, 240-247.
- Study of Competencies Desirable for Instruction of College General Education Courses in Physical Science, Oren R. Rankin, 297-306.
- Subject-Matter Content of General Education Science Courses, The, Robert Adrian Bullington, 285-292.
- Suggested Questions for the Discussion Groups, Theresa J. Lammers, 139-140.
- Syllabus in Biology for General Education II, A, Nathan S. Washton, 227-237.
- Teaching Biology for General Education, Nathan S. Washton, 237-240.
- Technique for Evaluating Third Grade Children's Understanding of Some Science Terms and Principles, A, Una Mae Matthews, 254-255.
- Technique for Studying the Maturity of Elementary School Children in Science, A, Clifford G. McCollum, 168-175.
- Time and Place of Undergraduate Training of a Group of High School Chemistry Teachers, Will S. DeLoach and Auburn Russ Hall, 90-91.
- Twenty-Ninth Conference on the Education of Teachers in Science, The, F. L. Fitzpatrick, 73-77.
- Undergraduate Preparation of High School Chemistry Teachers, Alabama, 1948-1949, Will S. DeLoach and Auburn Russ Hall, 27-28.
